

OCTOBER 2019

Dear Valued Partners & Friends,
 We are glad to announce our latest CE marked products and systems:

In infectious serology:

The **AESKULISA**® tests are qualitative and quantitative immunoassays for the demonstration of human IgG or IgM antibodies in serum or plasma.

Ref. No.	NAME	CLASS
6012	AESKULISA Toxoplasma gondii IgG	List B, Annex II
6013	AESKULISA Toxoplasma gondii IgM	List B, Annex II
6022	AESKULISA Rubella Virus IgG	List B, Annex II
6023	AESKULISA Rubella Virus IgM	List B, Annex II
6032	AESKULISA Cytomegalovirus IgG	List B, Annex II
6033	AESKULISA Cytomegalovirus IgM	List B, Annex II
6035	AESKULISA Cytomegalovirus gB IgG	List B, Annex II
6042	AESKULISA Herpes Simplex Virus 1/2 IgG	Others products
6045	AESKULISA Herpes Simplex Virus 1 (gG1) IgG	Others products
6048	AESKULISA Herpes Simplex Virus 2 (gG2) IgG	Others products
6051	AESKULISA Varicella-Zoster Virus IgA	Others products
6052	AESKULISA Varicella-Zoster Virus IgG	Others products
6053	AESKULISA Varicella-Zoster Virus IgM	Others products
6062	AESKULISA Parvovirus B19 IgG	List B, Annex II
6063	AESKULISA Parvovirus B19 IgM	List B, Annex II

In **Point-Of-Care**:

AESKUCARE® Tests are ideal for health-care professionals to screen patients during consultation.

Ref. No.	NAME
820101	AESKUCARE Allergy ONE
830101	AESKUCARE Food Intolerance ONE

In **Multiplex Line immunoassay**:

The **AESKUBLOTS**® test line represents a variety of different immunoblots for efficient profile testing.

Ref. No.	NAME
431401	AESKUBLOTS Food Intolerance ONE
431402	AESKUBLOTS Food Intolerance TWO
431403	AESKUBLOTS Food Intolerance THREE
431404	AESKUBLOTS Food Intolerance FOUR
431405	AESKUBLOTS Food Intolerance FIVE
431406	AESKUBLOTS Food Intolerance SIX
431407	AESKUBLOTS Food Intolerance SEVEN
421001	AESKUBLOTS Allergy ONE
421002	AESKUBLOTS Allergy TWO
421003	AESKUBLOTS Allergy THREE
421004	AESKUBLOTS Allergy FOUR
421005	AESKUBLOTS Allergy FIVE
421006	AESKUBLOTS Allergy SIX
421009	AESKUBLOTS Allergy NINE
421010	AESKUBLOTS Allergy TEN
421407	AESKUBLOTS Allergy SEVEN
421408	AESKUBLOTS Allergy EIGHT

In **AESQC**®:

AESQC® IFA quality controls are composed of pre-diluted human serum available with different IFA patterns. These controls were developed to help laboratory managers to ensure that analytical error stays within acceptable limits.

AESQC® IFA are unassayed, ready to use reagents, and can be used for monitoring the performance of Immunofluorescence assays.

Ref. No.	NAME
AESQCANA01	AESQC ANA HEp-2 Homogeneous
AESQCANA03	AESQC ANA HEp-2 Centromere
AESQCANA04	AESQC ANA HEp-2 Speckled
AESQCANA09	AESQC ANA HEp-2 Nucleolar
AESQCANA21	AESQC ANA HEp-2 Cytoplasmic
AESQCIFANAP1	AESQC ANA HEp-2 Panel 1
AESQCIFANEG	AESQC IFA Negative Control

In **Multiplex Line immunoassay**:

Based on the acclaimed and widely adopted **HELMED**® platform **HELIA**® combines the **HELMED**® BLOT processor and **AESKU.SCAN** interpretation software in one automated system for **AESKUBLOTS**®.

Updated to Version 2.0, the user friendly **HELIA**® device software is now **CE** marked.
